Financials breakdown by business unit:

The following issues should be taken into account when comparing the first half of 2008 and 2007:

a) Press

In 2008, the **Regional Press** business includes the figures coming from the weekend supplement El Dominical, which is jointly distributed with several regional newspapers. El Correo de Andalucía and Diario Jaén fully contributed to the Group's figures until June, 2007.

b) International Radio

Iberoamericana Radio Chile is fully consolidated since July 1st, 2007.

c) Audiovisual

Sogecable 2007 figures include certain reclassifications. Previously, Sogecable's operating profit did not include the results coming from the disposal of fixed assets nor the impairment losses (or reversal of impairment) on fixed assets. In the current situation, both concepts should be included in the operating profit.

Media Capital figures and the Audiovisual area figures have been also reclassified in this sense.

Grupo Prisa's consolidated figures have not been modified. During 2007, the necessary reclassifications were made on consolidation to make these business units figures compliant with the Group's accounting policies.

Media Capital is fully consolidated in Prisa's figures since February 1st, 2007. In January 2007, Media Capital was equity accounted.

In May 2008 Media capital has integrated all the Audiovisual production of the Group. Media Capital 1st half figures include Plural. 2007 figures also include Plural in order to make figures comparable.

d) Printing

In 2007, the Printing division was classified as an asset held for sale in the Group's figures. As of December 2007, it was equity accounted.
